## PROJECTS

---

- **Auto-Acad** (Web Development)

Capstone Project

*Developer, Project Manager*

A web-based information system leveraging and utilizing Object-Oriented Programming (OOP) to automate school forms, while ensuring seamless management of student grades and information. Additionally, implemented a mobile responsive design for enhanced accessibility.

- **Qunnecter** (Web Development)

Internship Project

*Full-Stack Developer*

A web-based application for RSB Consulting Inc. Developed for their employees and use it to book conference rooms for specific occasions like meetings. Utilizing MVC Architecture (Model-View-Controller) with Laravel Framework and Bootstrap for Mobile Responsiveness.

- **Invi Clothing Co. Website** (Web Development)

Group Project

*Designer, Database Analyst, Documentation Manager*

A dynamic e-commerce website catering to a small clothing business, using native PHP, where customers can easily make online purchases.

- **Salon Reservation System** (Python)

Group Project

*Data Analyst, Programmer*

Developed a salon reservation system using Python, incorporating advanced data analysis techniques for efficient scheduling and analysis of customer bookings.

- **EYE LOVE YOU: On Proper Eye Care in light of the “New Normal”** (Webinar)

Organization Project

*Director, Editor*

Organized a highly informative webinar focused on promoting proper eye care in the digital era, particularly during the pandemic, providing

valuable tips on maintaining eye health based on individual needs and requirements.
